RAMCoders

GoKidsGo User Manual

Production of RamCoders

Introduction

Welcome to the GoKidsGo Help Document. **GoKidsGo** is an android application inspired by the concept of introducing kids to e-learning at an early age as part of their learning experience. It targets schools that want to innovate their teaching process and change the traditional means of teaching as promoting and implementing e-learning at the kindergarten level is crucial to shaping children's educational prospects positively.
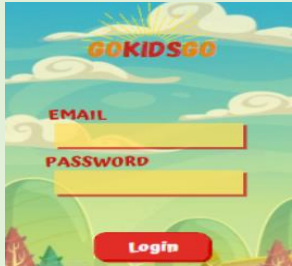

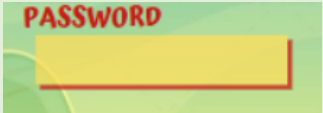

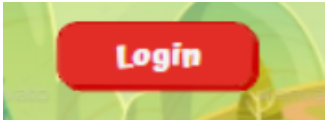

This user guide provides a thorough explanation about GoKidsGo from its features to a comprehensive walkthrough about its use.

➢ **New User:**

First time users will receive an email from GoKidsGo that contains the email Id and password to log in to the application. You may only log in once with the email and password provided to you.
